

Coursework

Stage 5

Task 1

Luka Triska

May 26, 2017

After running the `get_results.py` module, i received the following results:

1 The safest months to travel from lviv to kiev:

- January, its safest hour of departure: 8
- February, its safest hour of departure: 14
- March, its safest hour of departure: 10
- April, its safest hour of departure: 16
- May, its safest hour of departure: 8

2 The safest months to travel from lviv to odessa

- February, its safest hour of departure: 14
- March, its safest hour of departure: 16
- April, its safest hour of departure: 12
- May, its safest hour of departure: 8

I believe that these results are pretty self-explanatory and require no additional analysis1.
